About 1 to 25

The concept of 1 to 25 was invented by the master puzzle designer Jeff Widderich in 2008. Jeff lives in British Columbia, Canada, and is a founder of Syndicated Puzzles Inc. Jeff invited Andrew Stuart to turn the concept into a working puzzle - ensuring each puzzle has a unique solution. Andrew lives in Norfolk in the United Kingdom and has published Sudoku and many variants in major newspapers around the world. "1 to 25" is the latest innovative puzzle to come out of their partnership.

The Rules

1 to 25 is a very simple puzzle and should only take the solver a few minutes.

To solve 1 to 25, move the numbers from the outer ring onto the board in the directions of the chevrons. As you place them they must snake together vertically, horizontally or diagonally so they link in sequence from 1 to 25.

In the original '1 to 25' the start number was always 1, but in this pack, we have created puzzles with twenty five different start numbers, so you will have to snake your solution in two directions!

There is only one solution.

For more information and four daily puzzles that can be played online, visit www.1to25.com

Ordering

To order these puzzles contact Jeff Widderich on +1 250 885 8344 or email sales@syndicatedpuzzles.com
